

During my first internship at the Agricultural Bank of China, I wrote a technical report which indicates some problems of the internal loan and credit management system and designed a new UI based on the original system which helps to improve work efficiency.

Here is a part of my report:

The UI design of the current system:

The improved UI:

I was working as an IT specialist at the Ministry of Public and Business Service Delivery in my second internship, and my main job was also to design and improve UI of the application.
